ERS Hire

Top 50 Hospital Selects ERS Hire to Perform Background Checks

July 11, 2006 - Pensacola, Fla. — ERS Hire, Inc., which provides detailed employment verification and pre-employment background screenings nationwide, announces its agreement with University of California Davis Health System, which includes the top ranking UC Davis Medical Center in Sacramento, California.

Under the contract, ERS Hire will perform criminal background screening services and social security verifications on UC Davis Health System employees.

"We were impressed with ERS Hire because of the services they offer and their compatibility with our HR record system," said Susan Summers, Manager of Recruitment, Employment and Training & Development in the Department of Human Resources at UC Davis Health System. "We are impressed with ERS Hire's responsiveness and quick turnaround time."

The UC Davis Health System chose ERS Hire over four other companies, one of which was an existing provider.

"We are pleased to serve one of the nation's leading hospitals," said Jon Socolof, president of ERS Hire. "Our medical pre-employment screening service is one of the fastest growing segments of our business. The fact that we stay on top of all the current regulations make us an attractive option for hospitals and medical facilities."

The contract for ERS Hire's services began in April.
